ONE NIGHT CAN CHANGE YOUR LIFE FOREVER

Bonnie, a young and successful Latina architect, is sexually assaulted while walking home from an evening out with friends in Brooklyn. At first, she attempts to keep the assault a secret from her long-term boyfriend Matt, but the truth quickly emerges. Bonnie emphatically denies the impact of what has just happened to her. She fights to regain normalcy and control, but returning to her old life is more complicated than expected. Her attempt to recapture the intimacy she previously had with Matt falters and cracks begin to surface in their relationship. Another attack in the neighborhood only drives Bonnie further into denial, before an

encounter with an at-risk woman forces her to face the truth and confront her own self-blame.

Stephanie Beatriz (*Brooklyn Nine-Nine, Short Term 12*) gives a powerful and moving performance as Bonnie, a woman who maintains her dignity and sense of humor as she deals with the aftermath of a life-altering experience. Written and directed by Emmy-nominated Australian filmmaker Jessica M. Thompson in her feature film debut, *THE LIGHT OF THE MOON* is a powerful reminder of the resilience of the human spirit and the importance of relationships in the face of a tragedy.
